

## User Guide: Allocation Procedure for Research Modules

This guide describes the allocation procedure ("Belegverfahren") for Research Modules in the Master's program in Economics.

### 1. Prerequisites

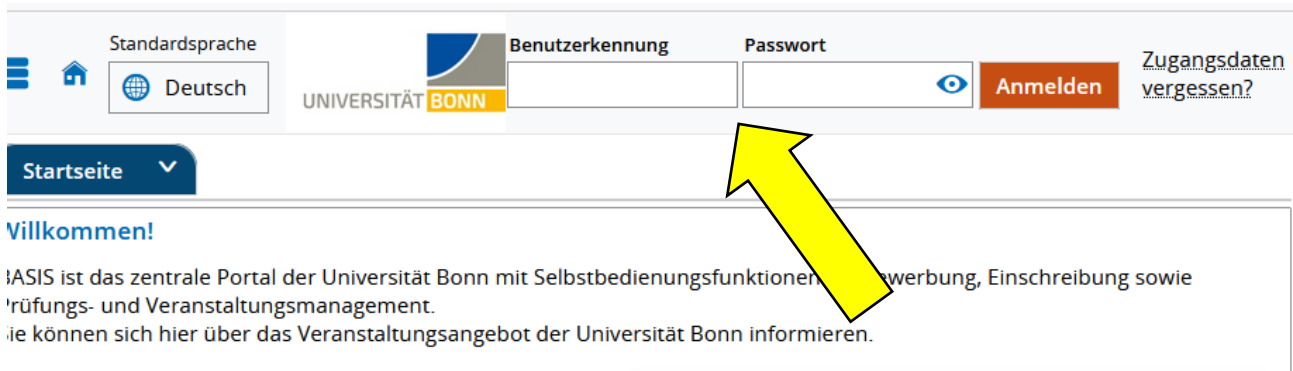

Before you start, please ensure that:

- You are enrolled in the Master's program in Economics for the current semester.
- You have access to the university's campus management system (login credentials required).
- You are aware of the specific Research Module requirements stated in the examination regulations.

### 2. Registration Process

#### Step 1: Access the System

1. Open the university's campus management system in your browser  
-> <https://basis.uni-bonn.de/qisserver/pages/cs/sys/portal/hisinoneStartPage.faces>
2. Log in with your university ID and password.

BASIS ist das zentrale Portal der Universität Bonn mit Selbstbedienungsfunktionen für Bewerbung, Einschreibung sowie Prüfungs- und Veranstaltungsmanagement.

Sie können sich hier über das Veranstaltungsangebot der Universität Bonn informieren.

## Step 2: Navigate to the Allocation Section

1. Select "Course catalog" from the main menu.

Bewerbungen

Aktuelles ▾

Dear Students

The course catalog for the 2025/26 winter semester has been released. The course offerings are currently still being finalized. Instructions and help can be found in the [BASIS-Wiki for Students](#).

We recommend using the function Planner of studies with Module plan for registering for exams and courses.

The portal is currently still undergoing changes. If you began your studies before the 2025/26 winter semester, please also read the information here: [BASIS-Wiki for Students](#).

Please note that you must be logged into Bonnet to access the documentation.

3. Select "Volkswirtschaftslehre / Wirtschaftswissenschaften / Economics" and then "Master Economics (M.Sc.)".

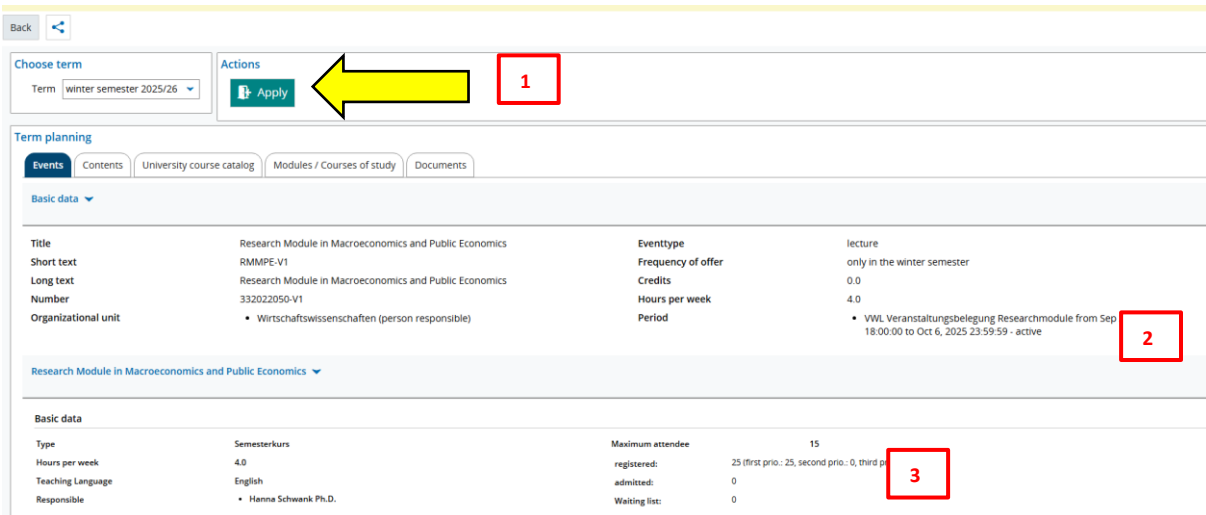

4. „Select MPO Economics 2017“, „Master Module Account“, „Advanced Modules“.
5. Please select a field of study in which you would like to take a Research Module.

6. Please click „RM in ...“ and select „Research Module in...“ – lecture.

7. Click on „Apply“.

### Step 3: Define your priorities

1. You now need to define and submit your priorities.
2. When assigning priorities, you must distinguish between the study field, the module and the parallel group.

|                                                                                                                                                                               |                                                                                                     |                                                                                                                               |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>Study field:</b> <ul style="list-style-type: none"> <li>• Priority 1 = „Preferred</li> <li>• Priority 2 = 1. Alternative</li> <li>• Priority 3 = 2. Alternative</li> </ul> | <b>Module:</b> <p>If a parallel group is offered you need to select “preferred” for the module.</p> | <b>Parallel group:</b> <ul style="list-style-type: none"> <li>• Prio 1 = Priority 1</li> <li>• Prio 2 = Priority 2</li> </ul> |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|

Priorities are assigned by first selecting the study field, then – if available – marking the module as "preferred," and finally ranking both parallel groups.

**At the moment, it is technically not possible to prioritize only one parallel group and then change the study field. It is also not possible to prioritize just one parallel group.**

## Example:

1. Imagine you want to prioritize as follows:

|                | Study field                                                      |
|----------------|------------------------------------------------------------------|
| <b>Prio 1:</b> | Research Module in Macroeconomics and Public Economics           |
| <b>Prio 2</b>  | Research Module in Microeconomic Theory                          |
| <b>Prio 3</b>  | Research Module in Econometrics and Statistics, parallel group 2 |
| <b>Prio 4</b>  | Research Module in Econometrics and Statistics, parallel group 1 |

2. Choose the following settings for the Research Module Macroeconomics and Public Economics.

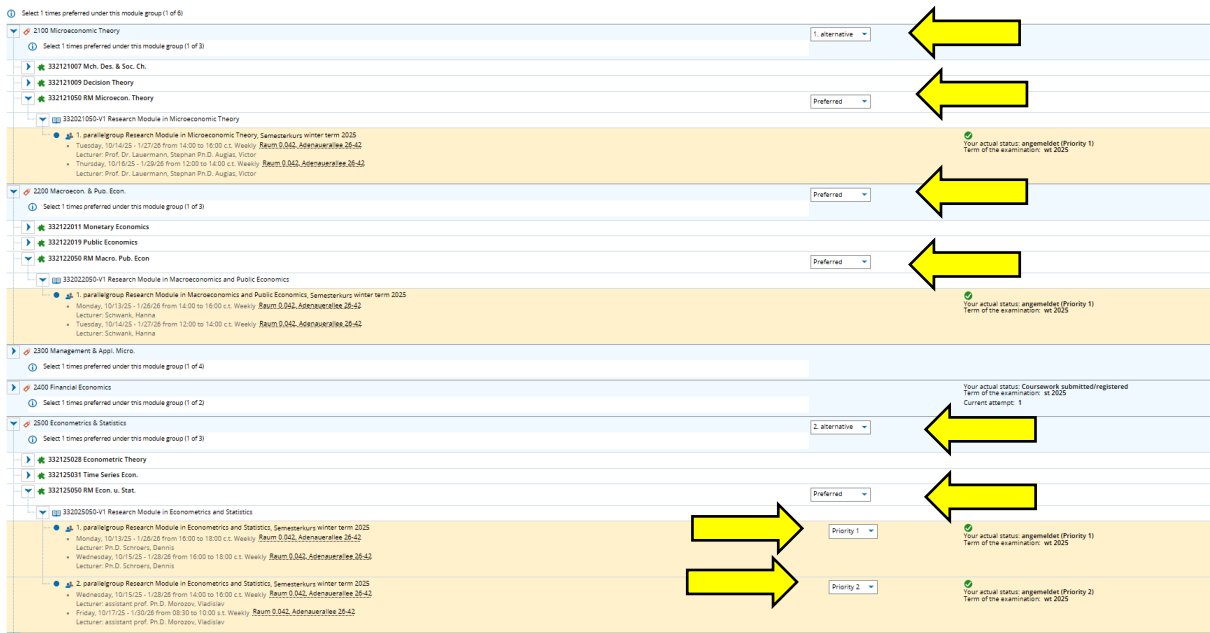

- study field Macroeconomics and Public Economics => Preferred
- Research Module in Macroeconomics and Public Economics => Preferred

3. Choose the following settings for the Research Module in Microeconomic Theory.

- Study field Microeconomic Theory => 1. Alternative
- Research Module in Microeconomic Theory => Preferred

4. Choose the following settings for the Research Module in Econometrics and Statistics.

- study field Econometrics and Statistics => 2. Alternative
- Research Module in Econometrics and Statistics => Preferred
- Parallel group 2: priority 1
- Parallel group2: priority 2

The screenshot shows the exam selection interface with the following settings highlighted by yellow arrows:

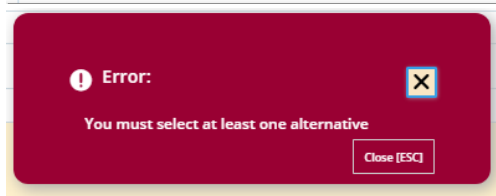

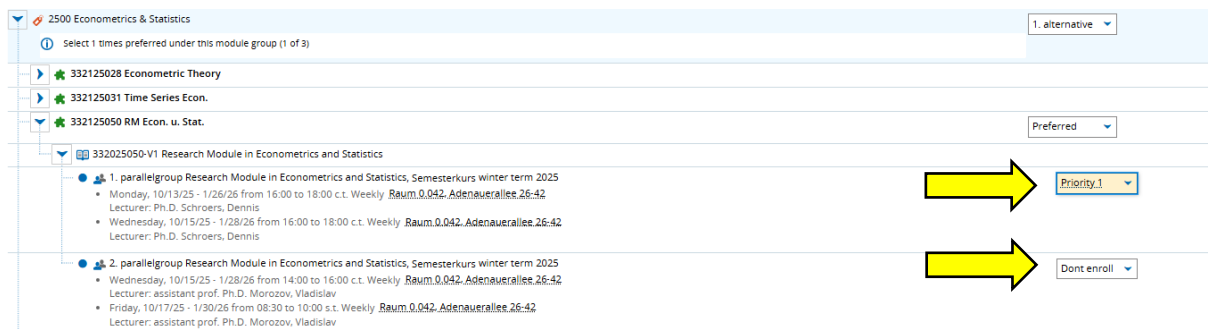

- 2100 Microeconomic Theory:** 1. alternative
- 332121009 Decision Theory:** Preferred
- 332121009 RM Microecon. Theory:** Preferred
- 332021050-V1 Research Module in Microeconomic Theory:** 1. parallelgroup Research Module in Microeconomic Theory, Semesterterm winter term 2025
- 2200 Macroecon. & Pub. Econ:** Preferred
- 332122011 Monetary Economics:** Preferred
- 332122019 Public Economics:** Preferred
- 332122050 RM Macro. Pub. Econ:** Preferred
- 332022050-V1 Research Module in Macroeconomics and Public Economics:** 1. parallelgroup Research Module in Macroeconomics and Public Economics, Semesterterm winter term 2025
- 2300 Management & Appl. Micro:** 1. parallelgroup Research Module in Macroeconomics and Public Economics, Semesterterm winter term 2025
- 3400 Financial Economics:** 2. alternative
- 2500 Econometrics & Statistics:** 2. alternative
- 332125028 Econometric Theory:** Preferred
- 332125031 Time Series Econ:** Preferred
- 332125050 RM Econ. & Stat.:** Preferred
- 332025050-V1 Research Module in Econometrics and Statistics:** 1. parallelgroup Research Module in Econometrics and Statistics, Semesterterm winter term 2025
- 332025050-V2 Research Module in Econometrics and Statistics:** 2. parallelgroup Research Module in Econometrics and Statistics, Semesterterm winter term 2025

### Important:

If you attempt not to assign a priority to one of the parallel groups, you will receive an error message.

**At the moment, it is technically not possible to prioritize only one parallel group and then change the study field. It is also not possible to prioritize just one parallel group.**

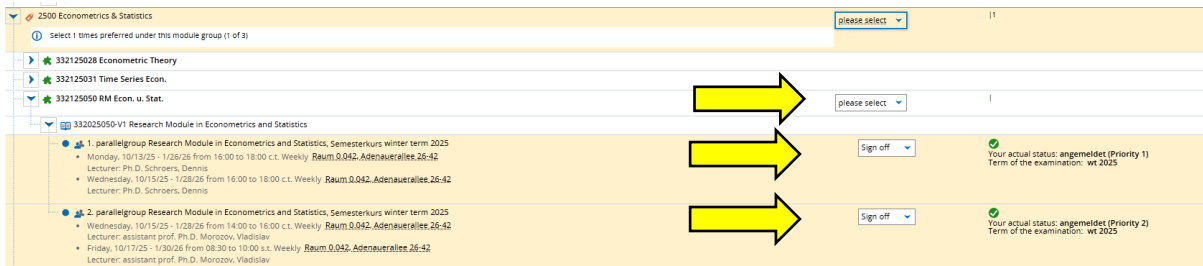

## 4. Sign off

Please proceed as follows if you would like to change your allocation.

1. Switch study field and module to “please select” and parallel groups – if applicable – to “Sign off”.

2500 Econometrics & Statistics

Select 1 times preferred under this module group (1 of 3)

332125028 Econometric Theory

332125031 Time Series Econ.

332125050 RM Econ. u. Stat.

332025050-V1 Research Module in Econometrics and Statistics

1. parallelgroup Research Module in Econometrics and Statistics, Semesterkurs winter term 2025

Monday, 10/13/25 - 1/26/26 from 16:00 to 18:00 c.t. Weekly Raum 0.042, Adensuerallee 26-42

Lecturer: Ph.D. Schroers, Dennis

Wednesday, 10/15/25 - 1/28/26 from 16:00 to 18:00 c.t. Weekly Raum 0.042, Adensuerallee 26-42

Lecturer: Ph.D. Schroers, Dennis

2. parallelgroup Research Module in Econometrics and Statistics, Semesterkurs winter term 2025

Wednesday, 10/15/25 - 1/28/26 from 14:00 to 16:00 c.t. Weekly Raum 0.042, Adensuerallee 26-42

Lecturer: assistant prof. Ph.D. Morozov, Vladislav

Friday, 10/17/25 - 1/30/26 from 08:30 to 10:00 s.t. Weekly Raum 0.042, Adensuerallee 26-42

Lecturer: assistant prof. Ph.D. Morozov, Vladislav
