### Your tasks will include

- **Assisting in research projects: Literature research, data research and analysis**
- **Programming in Python, R, Stata, Qualtrics, or oTree, working with LaTeX**
- Assistance in preparing and conducting studies in the BonnEconLab (e.g., proofreading instructions)
- Support in the preparation and organization of courses
- Administrative duties (e.g., organizing set-up of hybrid seminars)

### Requirements

- Enrolled in a master's program
- Very good English skills in speaking and writing, knowledge of German desirable
- Very good knowledge of Office programs
- Very good knowledge of at least two of the above-mentioned programming languages, willingness to learn
- Experience in handling data sets desired
- Experience in literature research is desired
- Motivation to familiarize oneself with new software and tasks
- Reliability, flexibility, and self-dependence

### This is what you can expect from working with us

- Flexible working hours after consultation with the institute
- Close cooperation with the researchers of the institute
- Broad spectrum of tasks and insights into academic research

### Application documents and deadline

- Applications will be accepted until the positions are filled
- Please send a tabular curriculum vitae, current transcript of records, and letter of motivation as a PDF file via e-mail to:
